

A guide to diabetes coverage

If you have diabetes, you may need supplies or routine tests to monitor your blood sugar. Our guide helps you determine what diabetic products are covered under your Part B (medical) benefit or your Part D (pharmacy) benefit.

For coverage details, a drug's tier level or to find a pharmacy/provider for a specific Excellus BlueCross BlueShield Medicare plan, visit [MyExcellusMedicare.com](https://www.myexcellusmedicare.com).

Important diabetes tests

Keep your diabetes under control with these tests. (A copayment may apply.)

- 1. HbA1c:** Measures your average blood sugar level over a three month period. Have this test done two to four times a year.
- 2. Urine Microalbumin Test:** Detects levels of a protein in your urine to check if the kidneys are working well. Have this test done once every year.
- 3. Dilated Retinal Exam (DRE):** Allows your doctor to see the inside of the back of your eye to look for eye problems or disease. Have this test done once every year. This is not a vision test.
